

*Symphony is Color.  
Symphony is Design.*

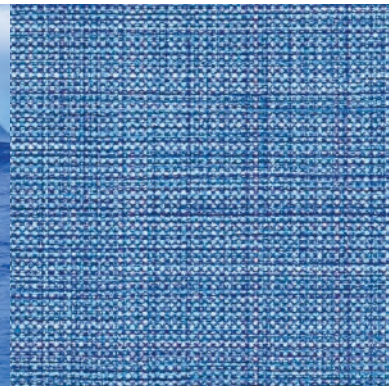

**Simply Green. Symphony.**

Vinyl is an accepted sustainable product. Let's explore the green side of Symphony® vinyl wallcovering...

**Perception:**

Vinyl production creates hazardous emissions.

*Impromptu® in Blue Hill AZ51803*

**Reality:**

The manufacturing process for Symphony vinyl wallcoverings exceed clean air emission standards. In fact, Symphony captures 99.5% of its total emissions – exceeding the 95% guideline set by the Clean Air Act.

**Perception:**

Vinyl is not eligible for LEED® points in sustainable projects.

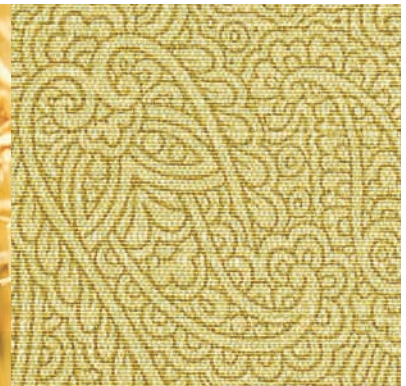

*Reed® in Baltic AZ51673RD*

**Reality:**

You can use Symphony vinyl for LEED® registered projects. In fact, our products have successfully been used in a LEED® EB Platinum building.

**Perception:**

Vinyl contains harmful chemicals.

*Cavatina® in Mustard AZ51709CT*

**Reality:**

Symphony vinyl wallcoverings are free of harmful chemicals such as formaldehyde, \*PFOA, \*PBDE and \*DEHP. In fact, our products do not contain any heavy metals such as lead, mercury, cadmium and chromium.

\*PFOA - Perfluorooctanoic Acid, \*PBDE - Polybrominated Diphenyl Ether, \*DEHP - DI (2-Ethylhexyl) Phthalate

### Perception:

Inks used in vinyl wallcoverings are hazardous.

*Vibrato Diamond® in Salsa AZ51793*

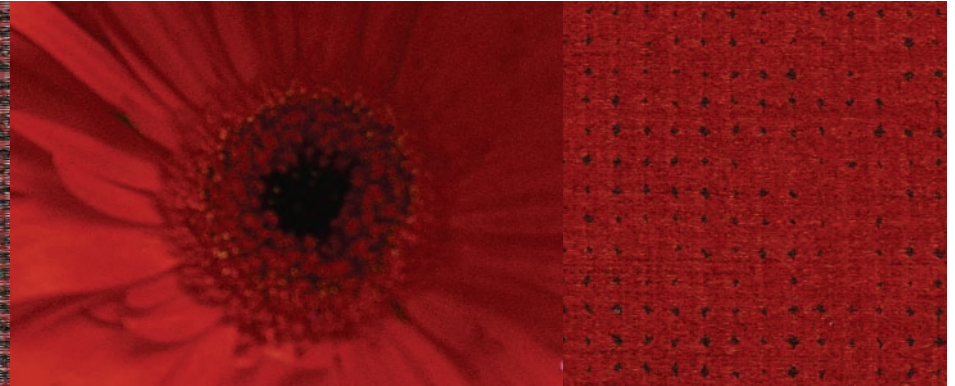

### Reality:

Symphony vinyl wallcoverings use only \*HAPs free inks to comply with the \*EPA's Federal Clean Air Act. In fact, Symphony recycles 100% of its printing inks in a sophisticated oxidizer that reduces energy consumption.

\*HAPs - Hazardous Air Pollutants, \*EPA - Environmental Protection Agency

### Perception:

Vinyl has high VOCs.

*Fusion® in Ruby Beet AZ51449FS*

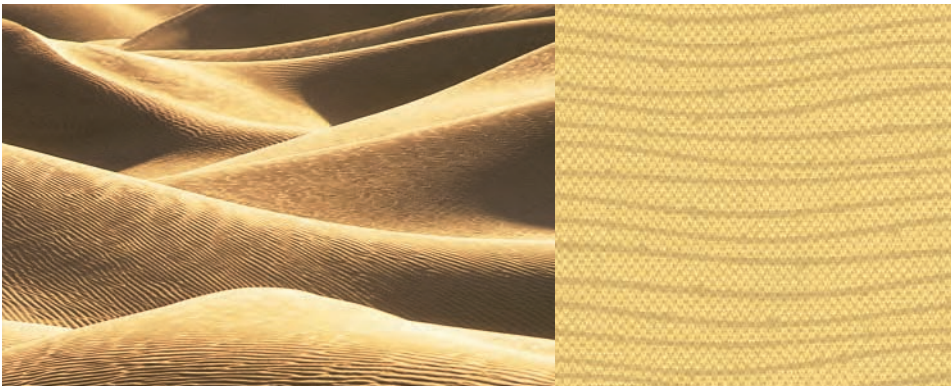

### Reality:

Symphony vinyl wallcoverings have low \*VOCs; we also have available products that meet the strict California 01350 specification for healthy indoor air. Tests have also shown that the initial odor of vinyl wallcoverings dissipates much faster than odors associated with paints\*\*.

\*VOCs - Volatile Organic Compounds \*\*Source: The Vinyl Institute

### Perception:

Vinyl can't be recycled.

*Rhythm® in Citronello AZ51850*

### Reality:

Symphony vinyl wallcoverings can be recycled and re-used in other products and contain pre-consumer recycled content. In fact, Symphony recycles 2 million pounds of vinyl waste each year.
